NOT FOR JOSEPH.

Balfour Premier of Great Britain.

Salisbury Resigns Prior to a Coronation.

People Wonder Where at is Boer War Chamberlain.

Few Changes in the Cabinet Expected—New Blood Deemed Desirable.

LONDON, July 13.—(By Atlantic Cable.) The Marquis of Salisbury has resigned the premiership of Great Britain and Ireland.

The Marquis of Salisbury tendered his resignation at an audience which he had with King Edward last Friday.

LONDON, July 13.—(By Atlantic Cable.) The fact of the resignation of the premiership of Great Britain by Lord Salisbury, as foreboded in the dispatches of the Associated Press, was officially given out this evening.

While it is said in political circles that Lord Salisbury's resignation would be coincident with the coronation of King Edward, it was scarcely looked for prior to that event.

The liveliest speculation is rife as to the personnel of the new Cabinet. The most discussed feature of the pending changes is the position of Chamberlain, the Colonial Secretary, who in many quarters has been regarded as the most promising candidate for the premiership.

A representative of the Associated Press, who has been in London since the resignation of Salisbury, has been interviewed by his new office.

As to Lord Salisbury's withdrawal, the main reason is considered by practically all the best-informed persons to have been a desire for a quiet life on the part of a man advanced in years, whose activities have been unusual and whose scientific tastes pre-

dispose him to study and seclusion. That the retiring Premier's health has failed to some extent is undeniable, but this is not more than perhaps is to be expected in a man of his years, and the close of the war in South Africa, and the return of the commandant-general in consideration to be appropriate to his withdrawal.

His retirement was practically arranged at an audience with the King a month ago, to be coincident with His Majesty's coronation, but the King's illness interfered with these plans and compelled Lord Salisbury to wait until His Majesty was sufficiently recovered to attend to state business.

Though alert mentally, the retiring Premier's physical condition, especially since the death of his wife, has not been satisfactory. That loss seemed to affect him greatly, and since that time he has done little entertaining beyond purely official annual dinners and receptions.

In a social aspect, however, Balfour's accession is not expected to make much difference, neither Balfour nor his sister, who acts as his hostess, being very fond of society.

Although Lord Salisbury's resignation does not necessarily involve the reconstruction of the Cabinet, it is believed there will be some changes. It is not considered unlikely that some of the ministers would be made peers in order to make room for new blood.

THE HOPE OF ROME. ROME, July 13.—Lord Salisbury's resignation of the British premiership has produced here a feeling of regret, tempered with the hope that the relations between Great Britain and Italy, which grew cooler under the retiring Premier, will, under Balfour, resume their ancient cordiality.

LONDON, July 14.—The changes in the British premiership have been officially announced in the court circular, and the announcement has been issued from Downing street, and will be read at a meeting of the whole Conservative party, peers and commoners, convened for today.

At the political clubs last night various opinions were expressed regarding Lord Salisbury's resignation, and Balfour's accession. The Liberal and Nationalists generally expressed relief to find that Balfour, not Chamberlain, was to be Premier, but a small section of both Conservative and Liberal circles were in no way reconciled to the idea of the "perpetuation of the 'Hotel Cecil'."

Among the bulk of his party, as also in the morning papers, satisfaction is expressed upon learning that Balfour is to be the new Premier. The Times says:

The change in the premiership will certainly involve ultimately other ministerial changes, but as the King is leaving town, it is possible that none will be announced for some weeks. As no office is vacant except that of premier of the Privy Council, the present Cabinet can carry on work as usual, and as Mr. Balfour has accepted no new office, he will not have to present himself to his constituents for reelection.

BACK INTO THE EARTH.

Bodies of Cambria Victims Buried.

Several Funerals Held at One Time.

Inspectors Grant Permission to Reopen the Mine.

Klondike Drift Not Ready for Work—Pure Air for All the Levels.

BY THE NEW ASSOCIATED PRESS.—P.M. JOHNSTOWN (Pa.) July 13.—After a consultation this evening with the State Mine Inspector, summoned here to make a thorough inspection of the Rolling Mill mine, James E. Rodrick, chief of the State Bureau of Mining Inspection, dictated a notice to General Manager Price of the Cambria company, granting formal permission to resume operations in all sections of the mine except the Klondike drift in the morning.

The Klondike drift will likely be closed for several days until perfect security is assured through the bracing of openings and repairs necessitated by the explosion.

Two more deaths of rescued victims have occurred since last night. Early this morning John Behr and Yasante Sibolla died at the Cambria general hospital. These men were among the six living last brought out of the mine Friday afternoon, of which party four others have died. These deaths raise the total fatalities to 114, although the company's records have it one less.

It is generally regarded as certain that the full extent of the disaster is now known. State inspectors say tonight that all the workings are now free of gas, and that the almost perfect ventilating apparatus is rushing currents of pure air into the uttermost recesses of the subterranean workings. There has not been a single place outside of the old abandoned chamber that has not undergone the scrutiny of experts to pronounce everything in as good condition as could be asked or demanded.

At 9:30 o'clock a.m. State Mine Inspectors Evans of Johnstown, Joseph Williams of Altoona, C. B. Rose of Greensburg and I. G. Roby of Uniontown left Chief Rodrick and the mine officials at the mine office and entered the mine. They went all through the Klondike, making air tests and noting the conditions of the ventilation.

They found many openings which retarded the proper course of air currents, and noted them. The inspection lasted four hours. After finishing the Klondike section, the experts went through all the other sections which have never manifested dangerous symptoms. They found matters in the ordinary shape, and at 4:30 o'clock the men left the mine to report to Chief Rodrick.

This talk covered all the men knew of the mine before and since the explosion, the effects of the explosion and all pertaining to the prospects of future immunity from a similar catastrophe. The men said particular note to the foremen-out, if possible, of the cause of the explosion, and the fact whether the blame rests on any one now living, upon whom heavy punishment would befall.

FUNERALS OF VICTIMS. Most interest centered today on the funerals of the victims scattered through the city. Black clouds of mourning were heaped over Cambria City, where the foreign population dwells. Scenes of Saturday in this section were repeated, but with sterner force. It was a grim fete day, on which the number of participants were augmented by the thousands of the mourning trains brought in.

A number came from towns within a radius of fifty miles or more. These funerals spread themselves out in squads, and took in the various points of interest associated with the tragedy. To the foot of the tramway leading up to the main pit mouth, all paid a visit. Hundreds gathered there at a time, in the vain hope of seeing newly-discovered bodies brought forth.

All the churches of Johnstown paid more or less attention to their morning service to the disaster. Collections were taken in many for the benefit of the bereft families of the poorer victims. Special masses were said in the Catholic churches. The afternoon was devoted to funerals. Incessantly, funeral processions moved along Chestnut street toward the Catholic cemetery near Morrellville.

The funeral of Mike Sabot, one of the conspicuous self-sacrifice heroes

of the disaster, took place from St. Mary's German Catholic Church. The large church was packed with friends and those who did not know the little dead fellow, but who had heard the noble story of his achievement, which brought him glory, but only at the expense of his life. Sabot was about 17 years of age. He was a trap-boy, and knew the mine like a book. He was out at the mouth of one of the headings when the explosion came. He found himself unhurt, and immediately rushed to the rescue of the fallen men beyond him. He had dragged three into a working that the after-damp had not reached, and to his help they owe their lives today. Back he plunged into the mine heading, after more bodies. Faintness overcame him, and he lay over and died. When found, his hands were still clutching the clothing of one man in a manner which showed conclusively that the boy was in the act of dragging him out to safety, when overcome. Mike's coffin was draped in pink, and a profusion of handsome flowers were strewn on top. As the cortege moved away from the church, there was not a dry eye in the crowd, which stood about.

Down on Fourth street, where St. Stephens' Catholic Church stands, the street was blocked for squares by thousands of spectators, carriages and mourners. The funeral commenced at 2 o'clock. The church was filled with affecting expressions of grief. Five coffins at one time were distributed in front of the altar. At 3 o'clock they commenced to leave for the cemetery. As the throngs commenced to evacuate the church, the bell broke through into wild ringing. Around the corner, at St. Mary's Greek Catholic Church, there were being held services for the dead, simultaneously with those at St. Stephens. Further down the street, the Croats were having their funeral. In all the foreign churches, the congregations displayed emblems of their sorrows. Variegated colors were worn by the women, robbing the scene somewhat of its mournful character.

All night Saturday workmen dug graves in the Morrellville cemetery. By this morning, they had enough completed to care for the day's arrivals, and for those who were taken to the cemetery entrance Saturday, and had to be stored in a barn until excavations could be made for them. The burial was simplified by the digging of long trenches. In one of these six living last brought out of the mine Friday afternoon, of which party four others have died. These deaths raise the total fatalities to 114, although the company's records have it one less.

It is generally regarded as certain that the full extent of the disaster is now known. State inspectors say tonight that all the workings are now free of gas, and that the almost perfect ventilating apparatus is rushing currents of pure air into the uttermost recesses of the subterranean workings. There has not been a single place outside of the old abandoned chamber that has not undergone the scrutiny of experts to pronounce everything in as good condition as could be asked or demanded.

LET THERE BE LIGHT.

Public-glare Cure for Trusts.

Secretary Moody's View on the Question.

Tariff Adjustment Might Be a Harmful Method.

New Plan for Pension-bureau Promotions—The President Firm Against Friars.

WASHINGTON, July 13.—[Exclusive Dispatch.] When Secretary Moody of the Navy Department was in Congress, he was a student of anti-trust legislation, and he agrees thoroughly with the President that further legislation on this subject is almost universally demanded. He is the first member of the Cabinet to discuss the question, as raised by the President in his Pittsburgh speech.

"The trust question is an extraordinary development in our industrial career, and must be considered with the utmost care," is Secretary Moody's view. "But the fact is, Congress has no power over the subject, except as it affects our interstate commerce. Under the Constitution, Congress cannot regulate corporations and consolidations, which are not engaged in interstate commerce. Congress is rigidly limited in the exercise of its authority in legislating."

"The President has made a specific recommendation upon the trust question, the substance of his advice being upon publicists, I believe that the requirement that trusts be obliged to make accounting to the proper authorities for their transactions and their general business is a good idea. It will have a great tendency to protect the investor, and on the other hand, it would furnish Congress with valuable information. No intelligent action can be taken toward legislating without such information being in the hands of the legislators. It is a sort of preliminary step, this matter of publicity, which will enable Congress to legislate properly. It probably will lead to a solution of the problem."

"To attempt to deal with the trusts by an adjustment of the tariff on trust products, as some have advocated, would be attended with extreme difficulty. It might affect others, other than those at whom it would be directed. It would involve the difficult question of dealing uniformly with all engaged in handling these products."

PRESIDENT IS FIRM RESPECTING THE FRIARS. THEIR PRESTIGE A MENACE TO GOOD GOVERNMENT. Chief Executive and Secretary Root Laboring With the Question—Will Take Strong Ground in Reply to the Pope—Taff Will Remain at Rome.

NEW YORK, July 13.—[Exclusive Dispatch.] At the Grand Union, J. W. Taylor and wife; at the Cadillac, L. Isaacs and Mrs. J. Fletcher; at the Ashland, H. T. Hazard; at the Albert, Mrs. H. Taylor of San Diego; at the Arlington, T. B. Wetherby of Pasadena.

AT NEW YORK HOTELS. NEW YORK, July 13.—[Exclusive Dispatch.] Attempts to blow up arsenals and powder magazines have been daily occurrences for the past fortnight throughout France, principally at Brest, Toulon, Nimes and Lyons. At Brest sentinels were attacked five nights in succession.

A police inspector put in charge of the case says he believes the anti-war section of the anarchists, founded here a year ago, now has branches in other countries, the members being pledged to destroy all kinds of armament by every possible means. He also says there were three attempts last week to blow up English warships, but the facts were carefully kept from the public.

In Italy the Genoa coast batteries and several big guns have been ruined by acids.

PENSION-BUREAU PROMOTIONS. WARE'S CIVIL-SERVICE PLAN. WASHINGTON, July 13.—[Exclusive Dispatch.] Pension Commissioner Ware adopts a system of promotions.

IN VARIOUS CITIES.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 13.—[Exclusive Dispatch.] The Construction News has this to say with regard to the growth in building enterprises: "During the month just closed permits were taken out in twenty-three of the leading cities of the country for the construction of 6483 building improvements, involving a cost of \$25,365,915, against \$18,123,732 for the corresponding month of a year ago, an increase of 39.9 per cent. and 27,712,132 in cost, a gain of 8 per cent.

"Out of the total of twenty-three cities, seventeen show a gain, and against a loss in only six, whereas it had been expected that the gains would be less numerous in consequence of the fact that the bulk of the building and particularly the larger jobs usually confined to the earlier months of the year.

BRIEF COAST DISPATCHES.

Mohican in Distress.
SEATTLE (Wash.) July 13.—The United States training ship Mohican is safe. She arrived at Dutch Harbor in distress June 23, after being out from Yokohama thirty-nine days. When she arrived at Dutch Harbor she was out of fuel, and the food supply was nearly exhausted. Three days more and it would have been a serious question of finding sufficient food for the young sailors on board. The fact that she carried a full complement of sails probably saved her. After replenishing her supply of food and coal in Dutch Harbor, the Mohican sailed, June 30, for Honolulu, her original destination.

Steamer Oregon Injured.
PORT TOWNSEND (Wash.) July 13.—The steamship Oregon, Capt. Seely, from Dutch Harbor, July 4, was forced to return with a jury rudder, her own steering gear having broken down. On the second day after the vessel left the Sound, the cutter Manning reports that there is no truth in the rumor that the Jeanie Leach was sunk at Nunivak Island.

Fruit for the East.
SACRAMENTO, July 13.—Seventy carloads of fresh fruit left Sacramento today for eastern ports, and seventy-five carloads left the city before. On account of the strike at the docks, the daily shipments are kept somewhat below the normal, as it is necessary to find other markets for fruit that Chicago cannot accept under existing conditions.

Alleged Bigamist Jailed.
MARYSVILLE, July 13.—Leonard, alias Frank Steele, arrested in Sacramento yesterday on a charge of bigamy, is now in the County Jail here. The woman whom it is alleged he deceived, secured an annulment of the marriage some weeks ago on producing proofs.

Gold Bank Mine Closes.
MARYSVILLE, July 13.—The Gold Bank mine, just opened by the late Butte county, will be shut down. This property has been a famous producer. It has gone out of production, and the ore in sight is passed through the mill.

Theatrical Troupe Disbands.
MARYSVILLE, July 13.—An alleged theatrical troupe of specialists, composed of San Francisco people, which played at Marysville, Colusa and other towns last week, appeared here to sell business Saturday night, and went to pieces today.

Yuba's Assessment Roll.
MARYSVILLE, July 13.—Yuba county's assessment roll, just completed, reaches a total of \$2,098,100, an increase of \$200,000 over the year. This advance is due to electrical development and manufacturing, and offsets the loss shown in last year's roll.

Fire on Tomba Ranch.
MARYSVILLE, July 13.—A fire on the Tomba ranch, near this city, last night, destroyed a tankhouse, three barns, blacksmith shop, farming implements, a horse and about three hundred tons of hay. The insurance will not cover the loss.

Prisoners for Sutter.
MARYSVILLE, July 13.—The Democratic County Central Committee of Sutter county met last evening, and decided to hold primary elections August 12 and the convention August 16.

Swiss Bather Drowned.
CAUCUS, July 13.—Batista (Genard), a Swiss, aged about 30, was drowned this afternoon while bathing in the ocean five miles south of Cayucos. His body was not recovered.

Richardson's Slayer Freed.
MARYSVILLE, July 13.—Clarence Hopkins, the youth who accidentally shot and killed Charles Richardson Friday, was acquitted last night by a coroner's jury.

Lake Washington Tragedy.
SEATTLE (Wash.) July 13.—C. H. Wardner was drowned while bathing in Lake Washington this afternoon. He was 26 years of age and a civil engineer by profession.

MONT PEELE LETS GO.
Dense Column of Flame Emitted, Accompanied by Electric Phenomena and a Deep Rumbling.
[BY THE NEW ASSOCIATED PRESS—P.M.]
PORT DE FRANCE (Island of Martinique) July 13.—[By Western Cable.] Last night and today, Mont Pelee was in eruption, the activity being as great as that of Saturday and Wednesday night. Morne Rouge, Alopie Bouillon and Mornon were covered with stones and cinders, and were rendered uninhabitable for several hours. The volcano emitted a dense column of flame, and at the same time electrical phenomena were observed. The eruption was accompanied by a deep rumbling, resembling continuous thunder.

There were no fatalities reported, but the inhabitants of the northern part of the island were panic-stricken. The residents of Port de France remained calm, however. The French secretary of the island has been recalled from Guadalupe by the Governor, and started this morning for Mont Pelee.

BLUEFIELDS NOT TAKEN.
MANAGUA (Nicaragua) July 13.—The Director-General of Telegraphs of Nicaragua declares that Bluefields has not been taken by revolutionaries. It has been reported. Government reports announce the capture, July 7, of number of revolutionaries near Bluefields.

MEETING OF
MONARCHS.Italy's King Received
by Russia's Czar.They Toast Each Other
at Royal Banquet.Signor Prinetti Decorated by
Order of the Emperor—
Press Sympathetic.[BY THE NEW ASSOCIATED PRESS—P.M.]
ST. PETERSBURG, July 13.—[By Atlantic Cable.] Emperor Nicholas II, wearing the chain of the Order of the Annunziata, the Czarowitch, the Russian Duke, Count Lamoroff, the Minister of Foreign Affairs, the other Cabinet Ministers, and a number of officers greeted King Victor Emmanuel of Italy upon his arrival at the railway station here at 4 o'clock this afternoon. Preceded by a band playing the Italian national anthem, a guard of honor escorted their Majesties to the palace, where the Czar and the Dowager Empress welcomed King Victor. A banquet in honor of the royal guest was given in the hall of Peter the Great in the Palace, at which the Cabinet ministers, the members of the Italian embassy and high court dignitaries were present.

Count Lamoroff, at the Czar's command, handed to Signor Prinetti, Italian Minister of Foreign Affairs, who accompanied the King, the insignia of the order of St. Alexander Newsky. At the banquet the Czar, in toasting the King, said: "It is with lively and deep satisfaction that we greet Your Majesty, and it is especially agreeable to us that Your Majesty should begin his travels by visiting us. The whole of Russia sees therein a fresh proof of the bonds of the friendship which unite us, and which identifies itself with our sentiments. These feelings of sympathy between the two peoples favor the development of the most desirable relations and interests of the two countries. I thank Your Majesty sincerely for your visit, and I raise my glass to the glory and happiness of your reign, and to the glory of the government of the Queen Dowager, and of the whole royal family. I drink prosperity to Italy."

The band then played the Italian anthem. King Victor Emmanuel in reply, said: "I am very glad to be here, and to be in the presence of the Czar and the Dowager Empress. I thank Your Majesty for your hearty welcome and for the gracious words with which you have referred to me, to my country and to the ties of personal friendship which unite us. I am very glad to be here, and to be in the presence of the Czar and the Dowager Empress. I thank Your Majesty for your hearty welcome and for the gracious words with which you have referred to me, to my country and to the ties of personal friendship which unite us."

WU NOT SURPRISED.
[BY THE NEW ASSOCIATED PRESS—P.M.]
WASHINGTON, July 13.—Wu, the Chinese Minister at Washington, was not surprised to hear of the appointment of a successor to himself, as he expected the position to be filled by a Chinese of his own nationality. He is a graduate of Yale University, and is able, dignified and energetic. He is the only Chinese student in America in the 70's to receive recognition of his academic achievements. The Chinese officials have disliked him because of his progressive views.

WASHINGTON.

Eugene F. Ware has adopted a system
of promotions for his bureau
which he intends to make a permanent
feature. The system is explained in
the following letter of instructions to
the special Committee on Promotions:

"I want you to pick out the best
men you can find in the bureau for
each place, three from which I can
select. I want to promote for merit,
and I want to establish an incentive.
Therefore you will not overlook a
quiet man who attends to his duty.
Do not forget the man who has no
statements interfering for him. Re-
member the old soldier, and prefer
him to the new recruit. Merit and
ability are equal. Give no precedence to
political pull, and do not let religion or
nativity cut any figure. When merits
are equal, and only when equal, take
a Republican instead of a Democrat."

SEKS REINSTATEMENT.
[BY THE NEW ASSOCIATED PRESS—P.M.]
FORT SCOTT (Kan.) July 13.—Eugene F. Ware, Commissioner of Penitentiaries, who years ago was a member of William H. Lytle Post, G.A.R., of this city, and who has allowed his membership to lapse, will be reinstated at the next meeting of the post, at his request.

GAYNOR AND GREEN.
STEPS FOR EXTRADITION.
[BY THE NEW ASSOCIATED PRESS—P.M.]
WASHINGTON, July 13.—Steps have been taken by the State Department for the extradition to the United States of J. F. Gaynor and Benjamin J. Green, now under arrest at Quebec, on a warrant for their extradition. The grounds on which extradition is asked are comprehensive in character.

WASHINGTON BRIEFS.
Balfour Will be Friendly.
WASHINGTON, July 13.—The appointment of Balfour to the position of Ambassador to the United States will not result in any change in the existing relations between Great Britain and the United States. This is the belief of the State Department officials, who express the opinion that Balfour will be as much disposed as was his predecessor, Lord Salisbury, to continue the friendly relations between the two countries.

Martin Van Buren Gardiner.
ALAMEDA, July 13.—Martin Van Buren Gardiner, who came West with the government, served under Capt. Crawford in 1841, and who was connected with railroading and steamship lines for many years on the Coast, died suddenly yesterday of heart disease at his home in this city.

Gen. Thomas J. Morgan.
NEW YORK, July 13.—Gen. Thomas J. Morgan, who has been ill at Yonkers, where he lived, died today, aged 61 years. Gen. Morgan was born in Franklin, Ind. At the outbreak of the Civil War he enlisted as a private and rose to the rank of brevet brigadier-general. President Lincoln made him Commissioner of Indian Affairs. At the time of his death, Gen. Morgan was secretary of the Home Mission Society of the Baptist Church. The body will be taken to Rochester, N. Y., for burial.

GRAND ARMY ENCAMPMENT.

Coming Meeting Will be Most Notable.

Great Preparations Are Being Made.

Electric Illuminations for the Dome of the Great Capitol Building.

BY E. S. LITTLE.

INTELLIGENCE CORRESPONDENCE OF THE TIMES.

All the activities received in Washington indicate that this gathering forty years after the period of its origin at the front in exciting extraordinary interest throughout the country. The expert testimony of the passenger agents who roads reach Washington, directly or indirectly, is that the crowd will surpass even that of 1892. The officers of the local Grand Army posts speak confidently of a larger post attendance than at any other encampment in the history of the society. Gen. Torrence refers to the encampment as likely to prove the most interesting, the most significant and the most memorable reunion of veterans in his knowledge of the order, and that knowledge began almost with the foundation of the Grand Army of the Republic.

The whole city will be handsomely dressed for the occasion. A conspicuous feature of this decoration will be that it consists almost exclusively of American flags hung at an angle from all buildings along the line of the veteran's march from the city hall to the dome of the Capitol. On other occasions the splendidly proportioned pediments of such buildings as the Treasury and the Post Office have been marred by flags hung more or less gracefully about the cornice or allegorical pictures painted more or less skillfully. But this year the strong, fine lines of Greek and Roman architecture will be left intact except for groups of flags about that which always flies from a governmental building that will be entirely without decoration.

The parks will make up for this deficiency. There are perhaps 100 veteran's graves in the city, and these are all being transformed into encampment decorations. Near the Market square, for example, the trefolium of the fountain has been decorated with flags in solid colors in another park designated Gen. Thomas' camp. About the pension building are a dozen floral badges, among which the most conspicuous is that of the Ninth Corps, designed by Gen. Burnside, with its shield, anchor and cannon admirably modeled in colors and legend. Preparations, which are at the same time detailed and businesslike, have been made by the command of the Grand Army of the Republic, which is to occur in Washington during the second week in October. Ten years ago the veterans of this organization were entertained in the city's parks and the celebration was a success. The members proved to be one of the most notable experiences in their lives. It is the purpose of the business men who have interested themselves in the reunion of this year more noteworthy.

Three days, October 6, 7 and 8—Monday, Tuesday and Wednesday—have been chosen by Gen. Ell Torrence and his associates as the G.A.R. executive committee has ordered the celebration. The entertainment of the veterans and their guests, however, will cover an approximate week, beginning with the Thursday or Friday preceding the convocation of the delegates.

Formerly has been set apart for the first day's session of the convention and a special and elaborate display of fireworks, at which all the officers and members of the organization are to be present. The celebration of the convention will conclude its annual session, while the general visitors to the city will enjoy a series of entertainments, including a reception at the White House, the display of fireworks will be presented by the city, and the smaller receptions will be tendered the officers of the women's organization by local chapters of the Red Cross.

PREPARING FOR A GREAT CROWD.

This is a brief statement of the programme so far agreed upon, and is, of course, subject to change to conform with later wishes of Gen. Torrence. An extensive schedule of regimental, division and corps reunions has been arranged for the encampment. Conventions of less noteworthy significance than that of the Grand Army will be held at the same time by various associations of survivors and auxiliary organizations. Numerous excursions will be made to the Potomac River, the historic or legendary interest, such as Mt. Vernon and Braddock's Rock and the two hundred or more battlefields of the work done by the several departments of the civil service, and encampment week will otherwise afford the general public the opportunity for inspecting that part of Washington not infrequently associated with, but nevertheless neglected by, the coming of the veterans.

ILLUMINATED COURT OF HONOR.

These decorations will converge on a court of honor which is to be built in the space indicated by Lafayette Square and the grounds of the White House. Several well-known architects are at work preparing a design of Greek and Roman architecture, and the reviewing stands which shall have the general effect of a peristyle with a semicircle of Ionic columns leading to the doors of the White House.

Long Beach's Chautauqua Assembly Opens Today.

Arrangements have been completed for the opening of the Chautauqua today. The exercises will commence at 2:30 p.m. and will be in charge of the Long Beach Board of Trade and of the citizens of Long Beach. There will be vocal solos by Mrs. Princess Long, Miss Thelma Lynn and others, with addresses of welcome and responses. The Lyric Club of sixteen male voices will travel to Long Beach for the occasion. Worldly activities will not be overlooked, for there will be studies in the reading of children and practical lectures on making bread. The favors of the goddess of music will also be invoked.

The Chautauquans will open their seventeenth annual assembly for Southern California at Long Beach this afternoon. For ten days they will travel the pathway of history and frequently regale themselves on the spots with feasts of literature. They will explore a few of the regions of the realm of science and send out an expedition of two to make inquiries among the stars. Worldly activities will not be overlooked, for there will be studies in the reading of children and practical lectures on making bread. The favors of the goddess of music will also be invoked.

The expert testimony of the passenger agents who roads reach Washington, directly or indirectly, is that the crowd will surpass even that of 1892. The officers of the local Grand Army posts speak confidently of a larger post attendance than at any other encampment in the history of the society. Gen. Torrence refers to the encampment as likely to prove the most interesting, the most significant and the most memorable reunion of veterans in his knowledge of the order, and that knowledge began almost with the foundation of the Grand Army of the Republic.

The whole city will be handsomely dressed for the occasion. A conspicuous feature of this decoration will be that it consists almost exclusively of American flags hung at an angle from all buildings along the line of the veteran's march from the city hall to the dome of the Capitol. On other occasions the splendidly proportioned pediments of such buildings as the Treasury and the Post Office have been marred by flags hung more or less gracefully about the cornice or allegorical pictures painted more or less skillfully. But this year the strong, fine lines of Greek and Roman architecture will be left intact except for groups of flags about that which always flies from a governmental building that will be entirely without decoration.

The parks will make up for this deficiency. There are perhaps 100 veteran's graves in the city, and these are all being transformed into encampment decorations. Near the Market square, for example, the trefolium of the fountain has been decorated with flags in solid colors in another park designated Gen. Thomas' camp. About the pension building are a dozen floral badges, among which the most conspicuous is that of the Ninth Corps, designed by Gen. Burnside, with its shield, anchor and cannon admirably modeled in colors and legend. Preparations, which are at the same time detailed and businesslike, have been made by the command of the Grand Army of the Republic, which is to occur in Washington during the second week in October. Ten years ago the veterans of this organization were entertained in the city's parks and the celebration was a success. The members proved to be one of the most notable experiences in their lives. It is the purpose of the business men who have interested themselves in the reunion of this year more noteworthy.

Three days, October 6, 7 and 8—Monday, Tuesday and Wednesday—have been chosen by Gen. Ell Torrence and his associates as the G.A.R. executive committee has ordered the celebration. The entertainment of the veterans and their guests, however, will cover an approximate week, beginning with the Thursday or Friday preceding the convocation of the delegates.

Formerly has been set apart for the first day's session of the convention and a special and elaborate display of fireworks, at which all the officers and members of the organization are to be present. The celebration of the convention will conclude its annual session, while the general visitors to the city will enjoy a series of entertainments, including a reception at the White House, the display of fireworks will be presented by the city, and the smaller receptions will be tendered the officers of the women's organization by local chapters of the Red Cross.

PREPARING FOR A GREAT CROWD.

This is a brief statement of the programme so far agreed upon, and is, of course, subject to change to conform with later wishes of Gen. Torrence. An extensive schedule of regimental, division and corps reunions has been arranged for the encampment. Conventions of less noteworthy significance than that of the Grand Army will be held at the same time by various associations of survivors and auxiliary organizations. Numerous excursions will be made to the Potomac River, the historic or legendary interest, such as Mt. Vernon and Braddock's Rock and the two hundred or more battlefields of the work done by the several departments of the civil service, and encampment week will otherwise afford the general public the opportunity for inspecting that part of Washington not infrequently associated with, but nevertheless neglected by, the coming of the veterans.

ILLUMINATED COURT OF HONOR.

These decorations will converge on a court of honor which is to be built in the space indicated by Lafayette Square and the grounds of the White House. Several well-known architects are at work preparing a design of Greek and Roman architecture, and the reviewing stands which shall have the general effect of a peristyle with a semicircle of Ionic columns leading to the doors of the White House.

Big Crowd Cheers Looloos to Victory---Shooting Tournament at Avalon---New Racing Association, Other Events

MOCKMAN WAS EASY MONEY FOR LOOLOOS.

BEATEN VIGOROUSLY AS LONG AS HE WAS KEPT IN.

Relly Again Surprised the Fanatics With Another Home Run—Jones Did First-Class Work—Has Bases and Tail Ends Break Even.

Los Angeles, 4; Oakland, 2.

Under a sweltering sun that half boiled the life out of the players, Oscar Jones beat the Mud Hens yesterday for the fourth time in as many games. He had been pitched against in every game they practically all his money all through the struggle, with the exception of the eighth inning, when two successive doubles scored their first run. The other one came on another double in the ninth, an error and an infield out.

Notwithstanding the heat, almost four thousand people went out to see the battle, and they got their money's worth, for the game was a good one all the way through. Jones was given perfect support, with the exception of two muffs by Lawler on hard running chances. Relly was again the hero of the day in the batting line, for he belted out a home run and a single in three times up, his other two chances being passes.

Doc Mockman started in to pitch for the visitors, but retired at the sixth inning in favor of Chrystall, who did not allow the Looloos a sign of a hit in the three innings wherein he officiated. Doc was due soup for the locals, and they had him on their minds, as they had on him with Jones for a triple and Jackson for two doubles; among other things, all these strikeouts being set off in Doc's six innings. The game was won entirely by batting at the right time, in the sixth inning, when Jones, who had been a hard single to left field, when Franks went to grab the ball, it bounced over him and also eluded the catcher. He ran past it, and then he returned, and during this time Oscar skinned around to third base like a race horse. Toman was assisted out of a grounder to Franks, and Lawler flew to McCredie in short right field. This looked bad for a run, with a triple as a starter, but Jackson made good work of a double, and scoring Jones. Householder knocked a safe bounce over Mockman, advancing Jackson to second base, and with a timely swing to left, and after the throw to the plate, Relly tried to make second on his hit, and was thrown out by Maw Lohman.

These four hits off Mockman were too much for Maw, and he was relieved by Chrystall, who took his place. After this, the Looloos did not get a hit, and none of them passed second base.

Jones had the visitors faded to death until the eighth round, after two were out, when successive doubles by Mohler and Strub, scored a run. The last inning they got their second run on a double by Will Devereaux, Lawler's miffed ball, and Lohman's out on a grounder to Raymer. This run would not have been scored if Lawler had not dropped the ball, but he was a chance at it on a long run and muffed. He muffed on a similar chance at Strub's fly in the fourth, but the error did not help out a run.

On the whole, McDonald did very good work yesterday, and there were but few complaints of his decisions. The crowd was on close plays that he probably saw better than anyone.

Association rules.

BRINGS SIGHT TO THE SIGHTLESS.

WONDERFUL DEVICE OF A BALTIMORE PHYSICIAN.

Application of which Investigates Wasted Nerves—Sensory Money One of the Patients to Attest to the Success of the Treatment.

[Cincinnati Enquirer:] Shall the...
be made to see? Has a new era in...
the treatment and cure of hitherto...
incurable diseases of the eye begun?...
Dr. Henry P. Garey of Baltimore...
says so, and his statement is supported...
by the testimony of United States Sen...
ator, Honorable Henry P. Gore, of...
and other sufferers from all corners...
of the United States, who assert that...
they have had their sight restored by...
Dr. Garey's invention. In fact, so great...
is the faith that Dr. Garey's patients...
have in the efficacy of his invention that...
they are about to form an organization...
for the purpose of spreading its fame...
abroad.

In a little room at Dr. Garey's...
office, No. 341 North Charles street, may...
be seen the doctor's invention—the...
ophthalmic oscillator—as he has named...
it. It looks not unlike a small station...
engine, and rests on a marble-top...
table. Attached to the machine are...
two pieces of rubber hose, like that...
used in making connections with gas...
stoves. At the end of each piece of...
hose is a little glass cup, shaped so...
as to fit nicely over the eye. The machine...
is operated by an electric motor.

How the machine works. The...
nerves which control the functions...
of the eye are all connected at the...
rear of the organ and supply the...
parts that give sight. When the nerves...
become lethargic and do not perform...
their proper functions, the parts on...
which they depend waste away and a...
loss of sight ensues.

The medical world has long known...
that the optic nerves are controlled by...
the muscles, as well as the muscles...
in the past have been considered in...
curable, simply because the medical...
fraternity was unable to reach the seat...
of the trouble.

I Experiment With Nobody's Ailments.

I have left the experiment stage years behind...
I accept no case the like of which I have never...
cured. What I have done I can do again. What...
I have in the past failed to do, I will not attempt...
to do. I, therefore, know just what I can do...
and what I cannot do. I will tell you your...
exact condition, and will tell you whether I can or...
cannot cure you. You can rely absolutely upon...
what I tell you.

Men Only.

My success in curing these derangements...
commonly termed "weakness" has done more to...
extend my reputation as a specialist in men's dis...
eases than any other thing. I was the first to...
discover "weakness" is merely a syndrome...
resulting from a chronically inflamed prostate...
gland, and that to remove this inflammation is...
the only method of permanently restoring lost...
vigor. To this day my system of local treat...
ment is the only scientific method for this...
I have not failed to effect a complete cure...
There are two reasons for this: First, the un...
equal effectiveness of my method; second, be...
cause I attempt cures no less reliable than my...
long experience enables me to recognize those...
that have passed into an incurable stage, and I...
treat only such as I know I can cure.
